RESIDENCY TRAINING PROGRAM

GENERAL INTERNAL MEDICINE
LOGBOOK

2008

OMSB-GENERAL INTERNAL MEDICINE LOGBOOK

Contents:	Page No.
1. Instructions to Residents	2
2. Performance Criteria Procedural Skills	2-27
- Cardiopulmonary Resuscitation	- Bag Mask Ventilation
- Insertion of Transvenous Temporary Pacemaker	
-Arterial Line Insertion	
- Arterial Blood Gasses Sampling	
- Insertion of Central Venous Line (CVP)	- Insertion of Swan-Ganz Catheter &
Interpretation of readings	
- Lumbar Puncture	
- Abdominal Paracentesis	
- Thoracentesis	- Bone Marrow Aspiration & Biopsy
- Intercostal Drainage Tube Insertion	
or COPD	- Inhaler use in Patients with Asthma
- Pulmonary Function Test	
(Including peak expiratory flow rate, spirometry & lung volumes)	
- Fine Needle Aspiration	- Knee Joint Aspiration/Injection
- Nasogastric Tube Insertion	
- Sigmoidoscopy	
-Attendance of Didactic Teaching	
-CME Activities, Presented by the Resident at Departmental Meetings	

Resident's Name: _____

OMSB Number: _____

Instructions to Residents

1. Please ensure that the patient is aware that an observed assessment is carried out.
2. All residents will demonstrate competency in performing, using appropriate indications, contraindications, recognition and management of complications, pain management and sterile technique, specimen handling, interpretation of results, and obtain of the below listed procedures.
3. All procedures must be supervised (by attending faculty, Chief Residents, fellows or supervising residents) until the trainee has developed and demonstrate competency in that specific procedure.
4. The score sheet given on the first page of this logbook may be used as a guide for the assessment.
5. Competency of performance of the procedure must be verified by the attending faculty, Chief Resident, fellow, or senior resident (who themselves have demonstrated competency with the procedure being observed).
6. The assessor must give feedback to the resident immediately after the assessment, especially when deficiencies have been identified.
7. Use the log book to keep an up to date record of the procedures you have encountered. It will be reviewed with by the program Director or Assistant Program Director every 6 months.
8. This log book has to be maintained by the individual OMSB resident for the entire period of training.

Performance Criteria (elicited and modified form RCP **D**irect **O**bservation of **P**rocedural **S**kills – DOPS)

UN = Unsatisfactory

S = Satisfactory

AE = Above expected

OB = Observed

		Unsatisfactory			Satisfactory			Above Expected		
		①	②	③	④	⑤	⑥	⑦	⑧	⑨
1.	Indication for Procedure	①	②	③	④	⑤	⑥	⑦	⑧	⑨
2.	Obtaining Informed consent	①	②	③	④	⑤	⑥	⑦	⑧	⑨
3.	Appropriate analgesia or safe Sedation	①	②	③	④	⑤	⑥	⑦	⑧	⑨
4.	Technical ability	①	②	③	④	⑤	⑥	⑦	⑧	⑨
5.	Professionalism and consideration of the patient (including during the procedure)	①	②	③	④	⑤	⑥	⑦	⑧	⑨
6.	Clinical judgment	①	②	③	④	⑤	⑥	⑦	⑧	⑨
7.	Awareness and management of complications	①	②	③	④	⑤	⑥	⑦	⑧	⑨
8.	Interpreting diagnostic information	①	②	③	④	⑤	⑥	⑦	⑧	⑨
9.	Drawing up an appropriate management plan	①	②	③	④	⑤	⑥	⑦	⑧	⑨
10.	Counseling and communication of results to patients / relatives.	①	②	③	④	⑤	⑥	⑦	⑧	⑨

Cardiopulmonary Resuscitation

Participate in at least 10
